

SWATCOM™

Hear and be Heard

Active8 Neckband

Dust protection & water resistant (IP67)

600 hours of battery life (2 x AAA) with battery save function

Twin Speaker for fail safe audio

suitable to be worn under a helmet or hat

SWATCOM™

Active8

Comfortable to use over longer periods of time with GEL ear seals

Waterproof sealed military spec electronics + battery compartment

Designed for extremely noisy environments

High quality 360 degree stereo sound

SPECIFICATIONS

ADJUSTABLE VELCRO STRAP FOR COMFORT AND DURABILITY

TWIN SPEAKERS INSIDE EACH EAR CUP FOR FAIL SAFE AUDIO

LEVEL DEPENDANT MICROPHONES

PADDLED NECKBAND FOR COMFORT AND SUPPORT

LONG LASTING GEL HYGIENE KIT

Active8 Neckband

The SWATCOM *Active8* waterproof neckband headsets are used by Military, Police Operations and Professional Shooters. The new ASIC* digital electronics offers 360 degree stereo sound reproduction to enhance situational awareness and audio clarity whilst giving optimum personal hearing protection.

The ASIC (Application Specific Integrated Circuit) circuit is controlled by a microprocessor. This makes it possible to combine very low current consumption with high performance and instead of cutting off peak sounds it compresses them down to a safe level of 82 dB(A).

Attenuation Data -SWATCOM *Active8* (Neckband)

f(Hz)	125	250	500	1000	2000	4000	8000
M _f (dB)	15.2	17.6	24.2	27.1	26.4	37.8	40.3
S _r (dB)	3.2	1.6	2.3	3.8	4.4	3.0	2.5
APV (dB)	12.0	16.0	21.9	23.3	22.0	34.8	37.8

H = 25dB, M = 23dB, L = 18dB, SNR = 25dB W=381g (headband)

- Lanyard attached to battery cap
- AUX Input for RX audio receive function
- Twin speakers in each ear cup for fail safe audio
- Battery save feature, auto switch off after 4 hours
- 600 hours of battery life (AAA)
- Sound level is limited to 82dB (A) for ultimate hearing protection
- GEL Ear seals for extreme comfort and improved sound protection
- ASIC Digital electronic sound reproduction compresses impulse noises

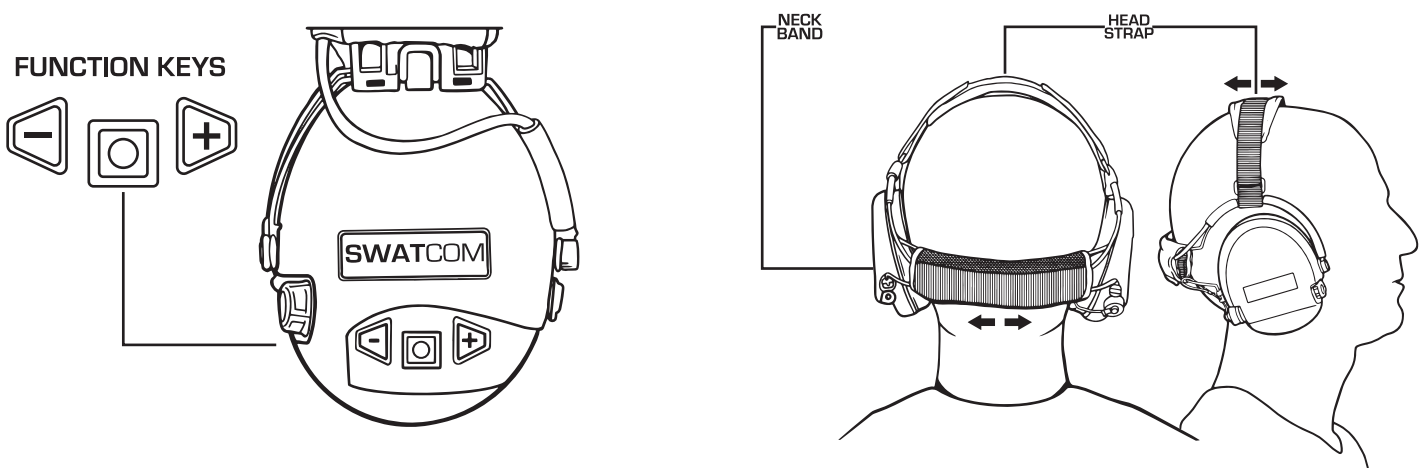

Active8 Neckband

On and Off (O)

Press key (O) to activate the electronic functions. To switch off, hold the same key (O) pressed in for 2 seconds.

Volume adjustment (+) (-)

The volume of the level-dependent function is adjusted by short presses on the volume keys, down (-) or up (+). The volume starts in the mode at which it was switched off, the volume can be adjusted in five steps. The output signal from the sound reproduction system of the product will not exceed known risk levels for damage to hearing, sound via the speakers is limited to a maximum of 82 dB(A) equivalent sound level.

The SWATCOM Active8 is available in a variety of colours, Neckband or Headband.
